## Porsche 911 (997) GT3/RS & GT2/RS

**ENQUIRE FOR INSTALLATION PRICE**

**KW V3**

**2-WAY ADJUSTABLE**

Porsche 911 (997)
GT3/RS & GT2/RS

## Product specifics

### What they do

KW V3 coilovers are two-way independently adjustable suspension units designed for everyday road use while also allowing the damping and ride height to be tuned for more focused driving. The system provides separate compression and rebound adjustment and is fully ride-height adjustable.

### Stated benefits

- More grip than the standard Porsche components
- Independent compression and rebound adjustment
- Ride-height adjustment for chassis setup
- Suitable for road use and track-focused tuning
- Allows corner weighting through ride-height adjustment
